Experience the World From a New Perspective

Lindblad Expeditions and National Geographic are united in a shared mission to take curious travelers deep into wild and storied places that paint a richer picture of our world. Together, we craft experiences that inspire and transform, pushing the boundaries of discovery to offer wholly unique experiences led by the foremost experts on your destination.

A Dynamic Expedition Fleet

The small, nimble vessels in the Lindblad Expeditions-National Geographic fleet were designed to take travelers to the world's most remote places, far beyond the docks where tourists congregate. Each is stocked with a curated collection of expedition tools to enhance your experience on shore and on board.

A Veteran Team

Every member of our staff—from our naturalists and expedition leaders to our crew working behind the scenes—is committed to ensuring our guests have an unforgettable experience.

Many are veteran guides who have worked with us for decades. They, along with the guest speakers who join us on board, give rich context to the cultures and landscapes we encounter ashore.

with Lindblad Expeditions-National Geographic

Take Great Photos with the Pros

A Lindblad Expeditions-National Geographic certified photo instructor (CPI) joins each voyage to assist travelers with everything from camera settings to composition. Stand side by side with top photographers, pick up tips in the field, and return home with the photos of a lifetime. On select ships, travelers also have access to a complimentary OM System Photo Gear Locker, stocked with new lenses, camera bodies, and other equipment that you can test in the field.

Actively Explore Every Day

Our itineraries feature a range of activities designed to foster in-depth exploration in your destination. Snorkel amid colorful coral gardens in French Polynesia, kayak beneath coastal cliffs in Iceland, or ride a Zodiac into an ancient Scottish sea cave. No matter the expedition, you will be able to explore your way—and at your own pace—every day.

ALL IN: Activities and excursions are always included in the voyage price.

Unparalleled Onboard Experiences

Beautifully appointed cabins, suites, and common areas reflect the sights, sounds, and artistic traditions of your destination, and meals feature local cuisines and sustainable ingredients sourced from nearby lands and waters. Our wellness

program connects you more deeply with your surroundings, whether you choose to greet the day with a stretch class on deck or unwind with a massage.

Expedition Cruising for Families

Expedition cruising is a great fit for families, whether you are parents traveling with grade-schoolers or grandparents bringing along the whole brood for a college graduation celebration. With activities that combine learning and fun and a team of dynamic experts leading the way, each day is full of discoveries that awaken new passions no matter your age.

❖ Why are expedition cruises ideal for kids and families?

They are an exhilarating combination of exploration and education, where each day is full of hands-on learning on board and on shore. The ship is casual and comfortable—a home base where your family can share the thrill of discovery and make lifelong friends with other families that are enthusiastic about exploring.

❖ What age groups would enjoy expedition cruising?

There is something for everyone, from the second grader fascinated by ship navigation to the teenager who loves the freedom of kayaking to the grandparent who never misses a naturalist talk. Your family makes memories together, and yet every generation can enjoy the experience their own way.

❖ What types of activities can children participate in?

Any of our expert-led excursions, from snorkeling with Galápagos sea turtles to cruising through an Icelandic fjord in a Zodiac. In the National Geographic Global Explorers program, they might collect specimens to view under a microscope or learn to identify wildlife on a naturalist-led hike.

❖ Are there accommodation options for families?

Families often reserve adjacent rooms, and several of our ships have adjoining rooms that turn two cabins into a family suite.

❖ What can kids do on the ship?

Kids tend to love down time on board: they are free to roam and explore their interests, but never far from family. They can examine footage of sea creatures with an undersea specialist or visit the open bridge to see the captain demonstrate how navigation instruments work. They might read a book in the lounge, or play a board game with new friends. They have just enough independence—and plenty of ways to stay entertained under the care of our crew.

❖ How far ahead of time should you book an expedition cruise for your family?

We recommend booking as far out as possible so you have flexibility to reserve the cabins and dates that suit your family.

New Expeditions & Additional Departures

Your passion for exploration drives us to design innovative experiences that go beyond your wildest imagination. In 2024, we will be introducing an exclusive collaboration with Food & Wine, launching our interactive program for young explorers in Iceland, and sailing inaugural voyages for a host of new itineraries.

Food & Wine and Lindblad Expeditions-National Geographic are launching an exclusive new collaboration to take travelers on an immersive culinary journey along the **Columbia and Snake Rivers**. Traveling aboard *National Geographic Sea Bird* or *National Geographic Sea Lion*, enjoy unique culinary experiences that bring you straight to the source of the Pacific Northwest's wild bounty. Along the way, guests will sample wines personally selected by *Food & Wine* Executive Wine Editor Ray Isle and travel with experts who will guide you through the region's diverse terroirs.

FOOD & WINE

In 2024, we are also offering additional departures of our classic Iceland itineraries: **A Circumnavigation of Iceland** and **Wild Iceland Escape**. We are thrilled to announce that both voyages will now offer our exclusive program for young explorers, led by certified field educators who teach young travelers 18 and under how to explore like scientists and tell the stories of their surroundings through photographs, videos, drawings, and more.

Zodiac cruise in front of Sea Cloud, Ionian Sea.

New *Sea Cloud II* expeditions include several journeys to **Italy, Croatia, and Slovenia**. We will also be launching an array of unique voyages in **Asia** and reimagining the itinerary of a guest favorite: **Ancient Isles: England, Ireland and Scotland**.

Uncommon Adventures for Spring & Summer

Our spring and summer voyages are curated to include unique adventures that allow you to uncover the hidden side of your destination. Discover little-known gems—from ancient rock art in Australia’s remote Kimberley region to elusive Amazonian wildlife—and enjoy special experiences, such as sampling the Pacific Northwest’s best wines, selected by a Food & Wine editor.

Sip Your Way Through the Pacific Northwest

Sail the Columbia and Snake Rivers through one of the world’s premier wine regions, tasting more than 40 of the area’s best bottles, each personally selected by *Food & Wine* magazine’s Executive Wine Editor, Ray Isle (See page 21.)

Seek Out Elusive Amazonian Wildlife

Glide along the headwaters of the Amazon River aboard an intimate riverboat, on the lookout for rare and reclusive creatures of the jungle, from pink and gray dolphins to monk saki monkeys, piranhas, hoatzins, and scarlet macaws. (See page 29.)

View Some of the World's Oldest Rock Art

More than 100,000 ancient rock paintings decorate Australia's Kimberley region, including some of the world's oldest: Gwion Gwion and Wandjina. Muse over the meaning of these ancient pictographs, ranging between 4,000 and 12,000 years old. (See page 58.)

Witness a Dazzling Display of Ice

See the thunderous calving of Sermeq Kujalleq, one of the world's most active glaciers, as we sail toward its face in Greenland's Ilulissat Icefjord. In nearby Disko Bay, scan the water for the freshly carved icebergs and multiple types of whales. (See page 38.)

Go Back to the Bronze Age in Sardinia

In the second millennia B.C., a conical defensive structure known as *nuraghi* developed on Sardinia, which harbors the finest remaining example of this unique architecture: Su Naraxi di Barumini. After visiting this UNESCO World Heritage site, delve into its history at a nearby archaeological museum. (See pages 44 and 48.)

Stroll Exquisite Japanese Gardens

Meander through Kenrokuen, Korakuen, and Senganen, three of Japan's most beautiful landscape gardens. Modeled after famed natural landscapes and fictional settings from legends and poetry, these oases use a 'hide-and-reveal' technique to ensure scenery changes with each step. (See page 60.)

Guest photographs the Itsukushima shrine, a serene island in Hiroshima Bay, Japan.

A scenic view of a fjord with a boat and icebergs. The image shows a group of people in a black inflatable boat on a turquoise body of water. In the foreground, there are large, jagged icebergs with a vibrant blue hue. The background features steep, rocky mountains with patches of snow and green vegetation, partially shrouded in mist. The sky is overcast with soft, diffused light.

North America

From sea to shining sea, North America showcases her majesty with sky-scraping trees, sawtooth peaks, and shimmering waters rich with marine life. Discover the abundance of wild beauty and cultural treasures at your doorstep, from the glacier-fed channels of coastal Alaska to Newfoundland's ancient Viking settlements, and more.

A Seasonal Guide to Alaska

No matter when you visit, the grandeur of Alaska is on display—but different times of year hold a different kind of allure. This month-by-month guide reveals what makes each season special.

May/June

In the springtime, budding vegetation and colorful wildflowers set the stage for rare wildlife sightings, like harbor seal pups floating atop ice floes and hungry bears feeding on the shorelines post-hibernation—sometimes with newborns in tow. Days continue to bloom with more life as they stretch into the season of the midnight sun.

July/Early-Mid August

Warm temperatures and longer daylight hours mean more chances to spot and observe wildlife, like breaching whales and wolves on the hunt. Summer is also the season when running salmon lure bald eagles and bears, and hiking trails are dotted with a bounty of wild berries ripe for picking.

Late August/September

Animals are still very active as preparation begins for hibernation and migration—which means foraging for bears and mobilizing among the local whale pods. Fall in Alaska is ephemeral but brilliant, as cottonwood turns golden yellow, fireweed burns a vibrant shade of red, and the northern lights can sometimes be spotted painting the night sky in neon.

National Geographic Endurance & National Geographic Resolution

138 guests in 76 outside cabins and suites

These next-generation expedition ships are truly in a class of their own—fully stabilized, highly strengthened, and rated in a top-tier ice class category (Polar Code 5 Category A). They are able to navigate polar passages year-round and safely explore uncharted waters, and the wave-slicing technology of the patented X-bow® ensures the smoothest ride possible. Superb amenities—such as outdoor infinity hot tubs, saunas, and twin glass igloos equipped for overnight stays—make for luxuriant days at sea.

National Geographic Explorer

148 guests in 81 outside cabins and suites

Designed for in-depth exploration, she is the definitive expedition ship, capable of navigating both polar passages and temperate waters. Fully stabilized and with an ice-strengthened hull, she provides exceptional comfort, while her dynamic suite of exploration features—including an interactive chart room, a high observation lounge, and a low-profile bow with dramatic views—reflect a dedication to curiosity and wonder.
